EDUCATION

Washington University in St. Louis | | Annika Rodriguez Scholar | Bachelor of Science

May 2028

- Majors in Computer Science & Business, Minor in Mathematics
- GPA: 3.83/4.00 | Dean's List

PROFESSIONAL EXPERIENCE

AutoDesk

Jun. 2025 - Jul. 2025

Software Engineer Intern | San Francisco, California

- I supported the Fusion 360 team by helping improve internal tooling for design validation workflows. I worked with a small team of engineers to streamline part of the process used to test CAD model compatibility across different modules of the software.
- This project helped reduce manual testing time and improved the reliability of a key validation step in the development cycle. Used Python, Fusion 360 API, Git, Jira, internal Autodesk testing frameworks during my time there.

NurTree

Feb. 2025 - May 2025

Software Engineer | St. Louis, MO

- Leading development of **NurTree**, a mobile application that encourages healthy screen time habits in children through interactive quizzes and parental controls. Building the **mobile frontend** using **React Native**, delivering a responsive, cross-platform experience for both iOS and Android users. Developed backend services in **Node.js**, integrating with **Supabase**. Designed and deployed the official website, nurtree.org, to showcase the app's mission and updates.

Swamp Ventures Private Equity | Venture Capital Firm

Jan. 2025 - Apr. 2025

Market Researcher Intern | Gainesville, Florida

- Conducted **competitive analysis on 20+ companies**, evaluating **DCF models**, **EBITDA multiples**, and **revenue growth rates**, leading to **data-backed investment insights**.
- Developed **4+ investment memos and reports**, synthesizing complex financial data into **actionable recommendations for senior partners**. Assessed the **macroeconomic impact of interest rates and supply chain disruptions**, improving the firm's **risk-adjusted return strategy by 15%**.

LEADERSHIP EXPERIENCE

Washington University in St. Louis Student Investment Fund

Aug. 2024 - Present

Junior Analyst | St. Louis, MO

- **Co-manage a \$250K portfolio**, focusing on **Technology, Media, and Telecommunications**. Perform **technical analysis**, leveraging **market research**, **risk assessment**, and **valuation models**.
- **Pitched Applied Materials (AMAT) as a key investment**, highlighting its **AI-driven growth strategy**, **semiconductor market dominance**, and **diversified revenue streams**. The stock saw a **15% increase post-pitch**, reinforcing our thesis.
- Contributed to an **annualized portfolio return of 10%**, outperforming the **S&P 500 by 8%**.

PROJECTS

ESG Signal Scoring Pipeline for Public Equities

Python | NLP | Transformers | Scikit-learn | Streamlit

- Developed a data pipeline to evaluate ESG performance by extracting and analyzing unstructured text from sustainability reports, financial news, and social media. Used transformer-based NLP models to quantify sentiment across environmental, social, and governance dimensions. Applied anomaly detection to flag potential greenwashing behavior.

AI Receipt Saver - Personal Expense & Purchase Tracker

React Native | Expo | OCR | Supabase

- Built a mobile application to streamline receipt management and track individual purchase history. Integrated OCR (Optical Character Recognition) to extract and categorize line-item data from physical receipts. Utilized Supabase for real-time data storage, user authentication, and syncing across devices.

Technical Skills

Languages: Java, Python, JavaScript, TypeScript, SQL, HTML, CSS, C++, R

Developer Tools: AWS, Postman, Git, Docker, Prism, Supabase, Render, Firebase

Libraries/Frameworks: Spring Boot, React.js, Next.js, Node.js, PostgreSQL, Vue.js, Flask, React Native, TailwindCSS
