## EDUCATION

### Washington University in St. Louis

St. Louis, MO

*Annika Rodriguez Scholar — Bachelor of Science*

*May 2028*

- Majoring in Computer Science and Business with a Minor in Mathematics.
- GPA of 3.83/4.00 - Dean's List.

## PROFESSIONAL EXPERIENCE

### Autodesk

Remote

*Software Engineer Intern*

*Jun. 2025 - Jul. 2025*

- Worked on the Fusion 360 team, supporting improvements to internal tooling for design validation workflows. Collaborated closely with engineers to streamline CAD model compatibility testing across multiple modules, which significantly reduced manual testing time and enhanced the reliability of a critical validation step within the development cycle. Utilized Python, the Fusion 360 API, Git, Jira, and internal Autodesk testing frameworks during the internship.

### NurTree

St. Louis, MO

*Software Engineer*

*Feb. 2025 - May 2025*

- Led the development of NurTree, a mobile application designed to encourage healthy screen time habits in children through interactive quizzes and parental controls. Developed the mobile frontend with React Native to provide a responsive, cross-platform user experience for iOS and Android devices. Built backend services using Node.js integrated with Supabase for authentication and data management. Designed and deployed the official website [nurtree.org](http://nurtree.org) to communicate the mission of the project and provide updates for users and stakeholders.

### Swamp Ventures Private Equity

Gainesville, FL

*Market Researcher Intern*

*Jan. 2025 - Apr. 2025*

- Conducted in-depth competitive analysis of more than 20 companies by evaluating DCF models, EBITDA multiples, and revenue growth rates, generating actionable investment insights for the firm. Authored over four investment memos and reports that translated complex financial datasets into clear recommendations for senior partners.

## LEADERSHIP EXPERIENCE

### Washington University Student Investment Fund

St. Louis, MO

*Junior Analyst*

*Aug. 2024 - Present*

- Co-manage a \$250K portfolio with a primary focus on TMT sectors. Perform technical analysis and leverage market research, risk assessments, and valuation models to make informed investment decisions. Pitched Applied Materials (AMAT). Following the pitch, AMAT's stock price increased by 15 percent, validating the thesis. Contributed to an annualized portfolio return of 10 percent, outperforming the S&P 500 by 8 percent.

## PROJECTS

### ESG Signal Scoring Pipeline for Public Equities | Python, NLP, Transformers, Scikit-learn, Streamlit

- Designed and implemented a full data pipeline to evaluate ESG performance by extracting unstructured text from sustainability reports, financial news, and social media.
- Applied transformer-based NLP models to quantify sentiment across environmental, social, and governance categories, improving reliability of ESG assessments.

### AI Receipt Saver – Personal Expense and Purchase Tracker | React Native, Expo, OCR, Supabase

- Developed a mobile application that simplifies receipt management and personal expense tracking.
- Integrated OCR to capture detailed line-item data from receipts and used Supabase for real-time storage and retrieval, enabling seamless personal finance management.

## TECHNICAL SKILLS

**Languages:** Java, Python, JavaScript, TypeScript, SQL, HTML/CSS, C++, R

**Developer Tools:** AWS, Postman, Git, Docker, Prism, Supabase, Render, Firebase

**Frameworks and Libraries:** Spring Boot, React.js, Next.js, Node.js, PostgreSQL, Vue.js, Flask, React Native, TailwindCSS
